

McKenzie Bunk bed

5180: MK-TT-BB-NB

5183: MK-TT-BB-CO

Congratulations on the purchase of your McKenzie Bunk Bed. This bed has been crafted to the highest standards of quality and safety and will give you many years of enjoyment and practical use. Your bunk bed can be separated into two individual twin beds if the need arises for alternate sleeping configurations.

Since this bed is a natural wood product, there will be variations in color and grain, and minor checking may occur. This is normal and does not compromise the integrity of your bed. In fact, variation in character of solid hardwood is integral to the beauty and appeal of hardwood furniture, and distinguishes it from prefabricated, synthetic and composite materials.

Several basic safety considerations must be adhered to when using this bunk bed.

TO HELP PREVENT serious or fatal injury from entrapment or falls:

- Never allow a child under 6 years on upper bunk
- Always use the recommended size mattresses or mattress supports – standard twin 38" x 74" (96.5 cm x 188 cm) – to help prevent the likelihood of entrapment or falls
- Ensure thickness of mattress does not exceed 9" (22.9 cm) for the upper bed
- Surface of mattress must be at least 5" (12.7 cm) below upper edge of safety rails
- Always use safety rails on both sides of upper bunk
- Do not allow horseplay on or under bed(s) and prohibit jumping on the bed(s)
- Prohibit more than one person on upper bed
- If the bunk will be placed next to a wall, the safety rail that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and the wall
- Follow the information on the warning labels appearing on the upper bunk end board and on the carton
- Do not remove warning label from bed
- Periodically check and ensure that the safety rails, ladder and other components are in their proper positions, free from damage, and that all connectors are tight
- Do not use substitute parts
- Contact manufacturer or dealer for replacement parts
- The use of a water or sleep flotation mattress is prohibited
- Keep these instructions for future reference
- Use of a night light may provide added safety precaution for a child using the upper bunk
- STRANGULATION HAZARD- Never attach or hang items to any parts of the bunk bed that are not designed for use with the bed, including but not limited to hooks, belts or jump ropes

On this insert you will find a list of the hardware and bunk bed parts included, as well as detailed assembly instructions. Assembly is quite simple, and requires only a flat head screwdriver and a Phillips head screwdriver. The use of a power drill with Phillips head attachment is helpful but not necessary. Assembly will be most easily accomplished if you take the time to carefully sort the hardware and familiarize yourself with the function of each piece.

If you need assistance with assembly, part replacement, or any other matter, please contact the toll-free Epoch Design Customer Service Team from Monday through Friday, 9 AM-5PM PST at 1 (800) 589-7990. You may also email your request or comments to info@epochbydesign.com and a customer service representative will respond.

Thank you and Enjoy

HARDWARE LIST

16x 110mm bolts
Used to connect headboards
and footboard to side rails

16x 40mm bolts
Used to assemble long
safety rails and connect
safety rails to side rails

56x 30mm Wood screws
Used to secure slats
to side rails

2x 15mm round head screws
Used to attach ladder
hooks to side rails

16x Barrel nuts
Used to secure bolts

**4x Upper/lower bunk
connector pins**
Used to connect upper
bunk to lower bunk

1x Hex key
Used to tighten
bolt hardware

Guide

BUNK BED PARTS

2x Shorter end boards
Used on upper bunk

1x Ladder
Attaches to upper
side rail for entry
to upper bunk

2x Taller end boards
Used on lower bunk

2x Upper side rails
Connect upper end boards

2x Upright supports
Used for attachment
to long safety rails

1x Short safety rail
Used on upper bunk

2x Lower side rails
Connect lower end boards

2x Slat bundles
Rests strap side
down on side rails
and supports mattress

2x Long safety rails
Used for attachment to upright
supports on wall side of bunk

Now use the hex key to re-tighten all bolts so the bunk bed assembly is rigid.

It will be necessary to occasionally re-tighten all of the bunk hardware.

You may permanently affix the ladder to either side of the short safety rail by using 15 mm round head screws.
